## Data Management Solutions (DMS)

### **TO PROVIDE ECORP RESOURCE MARKETING WITH GAS MARKETING SOFTWARE SOLUTION**

DMS proud to announce eCorp of Houston, Texas as their newest client

Houston based eCORP Resource Marketing (eCORP) has chosen Data Management Solutions (DMS) to provide a gas marketing and management software solution for their new gas trading division. DMS will be providing their GasPro software to meet the full range of eCORP's needs for gas trading, scheduling, accounting, and reporting. The GasPro software from DMS was selected because it is proven to seamlessly manage the entire gas marketing process from beginning to end—deal capture to settlement, while providing accounting and controls all along the way. **Affordability, ease of use and internet accessibility were also crucial factors in their selection of the DMS GasPro solution.**

eCORP is a Houston, Texas based multifaceted energy company which, through its subsidiaries, affiliates and related entities, is engaged in the development and operation of natural gas storage facilities, natural gas pipelines, electric power plants and other energy related facilities. eCORP Energy Marketing, LLC is the energy marketing affiliate of eCORP, LLC. For more information, visit their website at [www.eCORPusa.com](http://www.eCORPusa.com).

DMS has been providing gas marketing and management software solutions for over a decade and is proud to announce eCORP as their latest client for their GasPro software solution. Visit the DMS website at [www.dms-houston.com](http://www.dms-houston.com).

If you would like more information on this topic, or would like to **schedule a demonstration of the GasPro software**, please contact DMS at [gasproinfo@dms-houston.com](mailto:gasproinfo@dms-houston.com).
